

Lecture Tour of Japan for Promoting Peace, Nonviolence, and Harmony as Practiced by Mahatma Gandhi

by Dr. Shobhana Radhakrishna

Dr. Shobhana Radhakrishna will conduct a lecture tour on "Transformational Leadership of Mahatma Gandhi and His Public Diplomacy" for students at Japanese universities and at the Embassy of India in Japan from October 15th to 25th, 2024.

Since 2008, she has visited Japan seven times, delivering 27 talks at 15 universities. I have observed a keen interest among Japanese students in Gandhi's teachings and the practical application of his nonviolent actions. Mahatma Gandhi's ideology and programs remain relevant in the 21st century as the world strives to achieve the UN Sustainable Development Goals (SDGs). Gandhi's legacy serves as a powerful reminder that sustainable development is a continuous journey toward a just, equitable, and harmonious world.
